

School Accountability Report Card

Reported Using Data from 2009–10 School Year

Published During 2010–11

The School Accountability Report Card (SARC), which is required by law to be published by February 1 of each year, contains information about the condition and performance of each California public school. More information about SARC requirements is available on the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>. For additional information about the school, parents and community members should contact the school principal or the district office.

I. Data and Access

DataQuest

DataQuest is an online data tool located on the CDE *DataQuest* Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, *DataQuest* is a dynamic system that provides reports for accountability (e.g., state Academic Performance Index [API], federal Adequate Yearly Progress [AYP]), test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2009–10)

This section provides information about the school, its programs, and its goals.

Washington Elementary School's vision is that all students will be academically proficient, healthy in body and strong in character in order to become self sufficient contributing adults in their community. Our mission, as the Washington learning community, is to provide all students with an enriched learning environment that includes high expectations for all students to meet their full potential.

At Washington Elementary we provide our students with an enriched learning environment and an excellent instructional program with high expectations for all students. This challenge is achieved through the implementation of district standards, a comprehensive, standards- based sequential curriculum, an array of prescriptive intervention programs, and a school wide discipline and student support plan. Our staff is guided by a shared commitment to educate all of our students to reach their fullest potential. As a learning community (staff, parents and students) we are committed to following shared beliefs:

We believe that our students will acquire the skills and desire to be life-long learners.

We believe that individual student needs are met through collaboration and prescriptive interventions.

We believe that all students, staff, and parents are deserving of respect.

We believe that our students will become self-sufficient contributing members of society.

We believe that our students, staff, and parents are responsible for their behavior and personal growth.

As students enter Kindergarten they are held accountable to meeting state and district grade level standards throughout their academic careers. Administration, teachers, and support staff work with parents to help monitor student achievement. We encourage all parents and community members to participate in our school activities and to take an active role in promoting academic success for all our students.

Opportunities for Parental Involvement (School Year 2009–10)

This section provides information about opportunities for parents to become involved with school activities, including contact information pertaining to organized opportunities for parental involvement.

Family support is an integral part of the educational process. Without this vital link, the goals set in the mission and vision statements of the school would be unachievable. Making parents feel welcome in the school and important to the success of the students has been the center of the school's strategies that send the message that family involvement is essential to advance our students' education. All family members are encouraged to attend our daily flag ceremony at the beginning of each school day. There we make important announcements and recognize students' efforts and achievements. A coordinated effort between the community and the school provides a safe and nurturing environment for all children. Parents are leaders in decision-making in the PTA, on the School Site Council, on the English Learner Advisory Committee and as parent volunteers. In order to build public confidence, monthly newsletters, special bulletins, flyers, and other forms of written communication elicit active participation and support for school programs.

School Facility Conditions and Planned Improvements (School Year 2010–11)

This section provides information about the condition of the school's grounds, buildings, and restrooms based on the most recent data available, and a description of any planned or recently completed facility improvements.

The appearance of a school's grounds, buildings, and classrooms influences the attitude of all who visit and use the campus. The district takes great efforts to ensure that all schools are clean, safe, and functional. The school's facilities support the special needs of all students. There are areas on campus, including the library-media center, teachers' lounges, and a teachers' workroom, for students and staff to go for collaboration and research.

Students utilize a grassy, park-like atmosphere. An attractive wrought iron fence encloses the front of the school and all gates are locked and unlocked to accommodate the daily schedule. Signs are posted at the front gate informing the public that the school is tobacco free, and the school follows a "No Trash" policy that encourages students and staff to assume personal responsibility for the appearance of the campus. The district governing board maintains high cleaning standards for all schools in the district. The school office can provide details. The principal works daily with the custodial staff to develop cleaning schedules to ensure a clean and safe school. All campus restrooms are open and operational.

District maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority.

IX. Student Performance

Standardized Testing and Reporting Program

The Standardized Testing and Reporting (STAR) Program consists of several key components, including the California Standards Tests (CSTs); the California Modified Assessment (CMA), and the California Alternate Performance Assessment (CAPA). The assessments under the STAR program show how well students are doing in relation to the state content standards. The CSTs include English-language arts (ELA) and mathematics in grades two through eleven; science in grades five, eight, and nine through eleven; and history-social science in grades eight, and nine through eleven. The CAPA includes ELA and mathematics in grades two through eleven, and science for grades five, eight, and ten. The CAPA is given to those students with significant cognitive disabilities whose disabilities prevent them from taking either the CSTs with accommodations or modifications or the CMA with accommodations. The CMA is an alternate assessment that is based on modified achievement standards in ELA for grades three through nine, mathematics for grades three through seven and Algebra I and science in grades five, eight, and ten. The CMA is designed to assess those students whose disabilities preclude them from achieving grade-level proficiency on an assessment of the California content standards with or without accommodations. On each of these assessments, student scores are reported as performance levels. Detailed information regarding the STAR Program results for each grade and performance level, including the percent of students not tested, can be found on the CDE Standardized Testing and Reporting (STAR) Results Web site at <http://star.cde.ca.gov>. Program information regarding the STAR Program can be found in the Explaining 2009 STAR Program Summary Results to the Public guide at <http://www.cde.ca.gov/ta/tg/sr/documents/pkt5intrpts09.pdf>.

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy. In no case shall any group score be reported that would deliberately or inadvertently make public the score or performance of any individual student.

X. Accountability

Academic Performance Index

The Academic Performance Index (API) is an annual measure of state academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information about the API can be found on the CDE Academic Performance Index (API) Web page at <http://www.cde.ca.gov/ta/ac/ap/>.

Academic Performance Index Ranks – Three-Year Comparison

This table displays the school's statewide and similar schools' API ranks. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest ten percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest ten percent of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing ten schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

Adequate Yearly Progress

The federal Elementary and Secondary Education Act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state’s standards-based assessments in ELA and mathematics
- Percent proficient on the state’s standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, including participation rates and percent proficient results by student group, can be found on the CDE Adequate Yearly Progress (AYP) Web page at <http://www.cde.ca.gov/ta/ac/ay/>.

XII. Instructional Planning and Scheduling

Professional Development

This section provides information on the annual number of school days dedicated to staff development for the most recent three-year period.

Professional development activities are essential to the maintenance of a quality educational program for all students. Over the past three years, the district has provided more than 200 hours per year of professional development activities for teachers and classified staff. These programs have emphasized a standards-based approach to the core subject areas of English Language Arts, mathematics, science and social studies. Over the past three years the district has also provided 14 shortened days per year for schools to use in school-based planning and professional development activities. The school-based instructional time and staff development program has addressed technology-based instruction; early literacy, shared decision-making, the utilization of standardized tests in the instructional program, and instruction for underachieving subgroups.
