Chess Club, the meeting at 3:30 is cancelled today.

CUPCAKE SALE
12pm | Rm 233
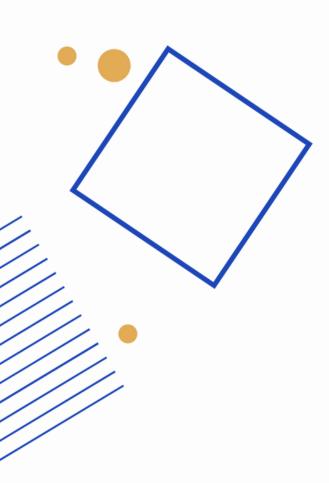

What is Minga?

The average high school student is getting school related messages in 14 different ways. Announcements, email, website, Instagram, text messaging, and the list goes on. Teachers, advisors and coaches are also using their own tools and platforms for their clubs, classes, groups and teams. Students are so overwhelmed and confused that up to 84% of those messages are never even read.

Digital Student IDs
Minga's Digital Student ID ensures students have access to an ID card wherever and whenever they need it. Minga's ID platform is also safer and more secure than traditional plastic ID cards.

Digital Hall Passes
Minga's Digital Hall Passes improve safety and security on campus and ensure easy hall access for students for any reason they need.

Communication & Community
Minga is your one-stop-shop for everything happening on campus outside the classroom and makes it easy to see events, announcements, news and other updates at a glance.

PBIS & Tracking
Earn points for participating in events or going the extra mile on and around campus. Redeem points to earn fun and valuable rewards at your student store or in the classroom.

Security & Safety

How safe are the tools being used between educators and students at your school?

Did you know that platforms like Instagram, Snapchat, WhatsApp, Band and even Text Messaging do not meet the safety and privacy requirements at the State or Federal levels for education? Safety, Privacy and Security measures protect not only your students but also your educators.

Collection/Use/Disclosure of Personal Data

Minga meets United States federal and state standards for data collection, storage and sharing. We never collect unnecessary information, and we never share it outside of your school or district including names or email addresses.

Data Hosting & Storage

All USA schools connect exclusively to our world class hosting facility operated in partnership with Google in Detroit, MI. Replication and backup data stays in the USA.

ZERO Advertising Policy

Minga never advertises to students and student or school data is never used to target or direct advertising in any way. Ever.

Content Filtering and Moderation

We have a three (3) step approach to ensure the integrity of content posted to your school Minga.

1. Member Accountability: There is no anonymous accounts on Minga; every student is represented by their real name. This reduces inappropriate behavior by 99.9%.

2. AI Filtering and Moderation: The Minga AI Engine automatically scans every post and comment for offensive words, phrases and emojis in addition to content representing bullying, sexting, racism and discrimination. This content is blocked in real time and the user and administrator are notified.

3. Reporting and Deleting: Anyone on your Minga can report offside content and you can set a report threshold to automatically remove it. Any teacher or administrator can immediately delete content in real time.

Privacy, Safety, Security are Priority #1
