

This Summer...

Keep Learning and Building Your Future

Try one or more of the activities below to exercise your brain during the summer and to get ready for next year.

Grades TK-2—Readingbear

Support your child with developing reading and spelling skills. Readingbear will teach students how to read and spell a variety of words following a developmental sequence. Lessons include reading words as well as their definitions and using words in different contexts.

To sign your student up for this amazing program:

- Go to [Readingbear](#) and sign your student up for an account.
- Mark the [settings](#) for presentations as “**Let me sound it out**”
- Have your child take the quiz **first** to make sure that the program starts at the correct level. Children that get **90-100%** should go to the next level without completing the presentation.

Grades 2-11—Commonlit

Support your child with developing their reading comprehension while enjoying engaging texts. Students will complete lessons on a wide variety of texts selected for their grade-level by educators. Lessons include standards-aligned questions that will support students in critical thinking. Children will receive a certificate when they complete the summer reading program. Use this [link](#) to sign your student up!

Grades TK-8—ST Math

Keep logging on and practicing math in the ST Math program until June 30th. Use the [summer log](#) to track how much your child uses the program and how many puzzles your child solves. Try to play ST Math at least **30 minutes three times a week**. Follow these [instructions to log on](#) to the program.

Grades 9 - 11—Essentials for Success in IM 2

Support your child with strengthening their Integrated Math 1 skills by logging on to a Google Class created with assignments that review Algebra and Functions standards and Integrated Math 1 topics taught early in the 2019-2020 school year. Children will take a pre-test to reflect on skills that they already know, will practice skills, and will review standards by completing "I Can" assignments. Students will complete a post-test for both the Algebra and Functions sections and receive instant results so they are aware of what they've learned.

- To sign up:
- 1) Visit [google.classroom.com](#) and sign in using your child's account.
 - 2) Select the “Essentials for Success in IM 2” classroom.
 - 3) Enter the class code: 2mocat.

Grades TK – High School – Khan Academy (Math)

Sign your child up to practice grade-level math skills and receive instant feedback. Khan Academy has a variety of courses that you can assign to your child including high school, advanced placement, and elementary grade level courses. Select “Eureka Math/Engage NY” for children in grades TK – 5 to assign a course that is aligned with the textbook students used throughout the year.
